

*She Put The Music in Me  
by Calee Reed*

It started with rock-a-bye, comforting when I'd cry  
All in her own style  
Then popcorn before my eyes, turning frowns upside down  
Into smiles  
With songs of the birds up high, looking at the blue, blue sky  
The wind as it rushes by  
Then leading me, guiding me, walking beside me she helped me  
To walk in the light  
And she built my house on a rock  
And she lives all that she taught  
And she is all that a woman should be  
She put the music in me  
I knew He was really there, He heard my child's prayer  
Answering from up above  
She gave like a little stream, I was her sunbeam  
And I felt my Savior's love  
I saw her kneel and pray with our family every day  
Listening to each whispered word  
Gentle in deed and thought, all the things Jesus taught  
Following promptings she heard  
And she lives to search, ponder, pray  
And she gives every day  
So her thanks will always be thanks indeed  
She put the music in me  
He made the tiny wings of each little bird that sings  
In the leafy treetops up high  
And all creatures great and small, I know God made them all  
Because of her sweet lullabies  
She's like a star shining bright  
And helps me to choose the right  
And she gives me the hope of a life yet to be  
She put the music in me  
She is so good to me  
Heavenly Father sent her to me  
And she taught me to lift up my voice and sing  
She put the music in me  
She put the music in me  
She put the music in me
